Drug Facts
<b>Active Ingredient (in each lozenge)</b> Menthol 1mg, ... Antitussive (cough suppressant), oral anesthetic
<b>Uses</b> Temporarily relieves: ● cough due to minor throat and bronchial irritation occurring with the common cold or influenza ● occasional minor irritation, sore mouth, and sore throat
<b>Warnings</b> ● Sore throat warning: If sore throat is severe, persists more than 2 days, is accompanied or followed by fever, headache, rash, swelling, nausea, or vomiting, consult a doctor promptly. ● Ask a doctor before use if you have: ● persistent or chronic cough as occurs with smoking, asthma or emphysema. ● cough that occurs with excessive phlegm (mucus). ● Stop use and ask a doctor if: ● cough persists for more than 1 week, tends to recur, or is accompanied by fever, rash or persistent headache. A persistent cough may be a sign of a serious condition. ● sore mouth symptoms do not improve in 7 days.
<b>Directions</b> ● adults and children 3 years and over: dissolve lozenge slowly in the mouth. Repeat every 2 hours as needed or as directed by a doctor. ● children under 3 years of age: ask a doctor.
<b>Inactive ingredients</b> citric acid, eucalyptus oil, isomalt, natural flavor, Vitamin C.
