

Olbas®

POWER TO BREATHE®

OIL FOR CHILDREN

Aromatherapy For Sensitive Noses

Benefits:

Inhalation: Ah, the Power to Breathe! This completely natural essential oil is a natural way to support your nasal and bronchial passageways, providing relief with every drop. The precise Swiss formula contains a blend of gentle essential oils which release penetrating vapors to the system, enhancing the breathing passages and releasing relaxing aromatics into the air.

For Children: This gentler version of Olbas Oil is milder than the original Olbas formula. It's perfect for little ones and those with sensitive noses. Simply sprinkle a few drops on a tissue and hold close the child's nose, allowing them to breathe in the vapors. May also be used in a vaporizer compatible with essential oils.

Ingredients: Isopropyl Myristate, Essential oils of: Peppermint, Eucalyptus, Cajeput, Wintergreen, Juniper Berry, Clove, and Orange Oil.
